4:20-4:40: CHIARA NOLI (ITALY)

Interpretation of an elimination diet

4:40-5:00:

Round table discussion with all speakers

BEING PRINCIPAL SPONSOR of the 5th World Congress of Veterinary Dermatology, Royal Canin has the pleasure to invite you to a pre-congress seminar on "Adverse reaction to food". Based on 5 short 20 minutes lectures (in English) given by independent specialists and by nutritionists from the Waltham Centre Pet Nutrition (UK) and Royal Canin, the seminar will end with a round table discussion to answer all questions from the audience. The seminar will benefit from the unique atmosphere of the Kursalon Hübner, a magnificent old building in the Park, a short distance from the Rathaus where the welcome ceremony will take place just after the seminar.

HOW TO REGISTER ?

Simply send an e-mail to:
meeting@royal-canin.fr
with your full name and address.
(limited amount of places)
