It is situated at the crossroads of ancient trade routes which have joined the North and South European civilization for centuries.

This city is situated in a picturesque countryside surrounded on three sides by wooden hills and opening to the Southern Moravian lowlands to the south of the city. For more information about this beautiful city with Spilberk castle go to <http://www.brno.cz>.

Conference lectures will be presented in the newly built university building - Small animal clinics ("Pavilon klinik malých zvířat"). Conference workshops will be done in the areas of Avian and Exotic Animal Clinic, which are situated in the same building. The University location is close to the city centre, at Palackeho street ("Palackeho trida") - <http://www.brno.cz/toCP1250/mapa/?lan=en>.
